

# DDR4 Probing and Capture Speed Record Broken Again

June 23, 2015 Bedford NH: FuturePlus Systems announced today the successful probing and capture of the latest DDR4 technology at speeds of 3300 MT/s for DDR4 DIMM implementations and 2400 MT/s for SODIMM. Previous demonstrations showed capture at 3200 MT/s and 1867 MT/s respectively. FuturePlus Systems is a Keysight Strategic Solutions Partner. The two companies work closely to provide the best in class debug and validation solutions to the computer industry. The two companies currently lead the industry in interposer and logic analyzer capture.

In order for engineers to ensure that their memory busses are working correctly they need tools to capture very fast and low power signals and analyze them for correct operation. Keysight Technologies and FuturePlus Systems have established themselves as the leader in this area working together for over 20 years on high speed validation and debug tools for the computer industry.

These tools offer powerful qualitative signal quality analysis for both Read and Write data in addition to the traditional state and timing capture.

## DDR4 Read and Write Bursts as seen by the Keysight U4154 at the FS2510 interposer

For more information on the U4154B Logic Analyzer used to make this capture visit the [Keysight Technologies](#) web site. For information on the FS2510 and FS2512 DDR4 Interposers used along with the U4154B to make this capture visit the [FuturePlus Systems](#) web site.

**About Keysight Technologies:** Keysight Technologies Inc. (NYSE: KEYS) is the world's leading electronic measurement company, transforming today's measurement experience through innovation in wireless, modular, and software solutions. With its HP and Agilent legacy, Keysight delivers solutions in wireless communications, aerospace and defense and semiconductor markets with world-class platforms, software and consistent measurement science. The company's 9,500 employees serve customers in more than 100 countries. [Learn More](#)

**About FuturePlus Systems:** FuturePlus Systems has been a Strategic Solutions Partner to Keysight Technologies and its predecessors Agilent Technologies and Hewlett-Packard for over 20 years. The two companies enjoy a close business relationship that involves engineering, marketing and sales. FuturePlus® products are available through Keysight Technologies and available directly from FuturePlus Systems. [Learn More](#)
